FROM STUDENTS DESK

ARUN KUMAR

Uzghorod is one of the best universities in Ukraine and globally as well. The teaching faculties here are very frank and helpful in nature. They never refuse to teach no matter what or how many times we ask them. This makes our study very easy. If we miss a class we can rework that topic very easily. To sum up I feel blessed to be a part of such a great institute. I feel like home here and the atmosphere here is also very studious and lovely.

AANCHALSAREEN

My university experiences thus far have been amazing. I have learned and experienced so many new things in such a short period of time, and it has gone by so fast. I am still discovering all the opportunities that university offers me. Uzghorod National University is a very welcoming place, and from the first day, I felt at home here. I have made many new friends from many different backgrounds. There are Africans and Arabians students in my group, that has allowed me an insight into their cultures. Life at Uzghorod is a great experience that I plan to make the most out of.

A University is often considered as a source of content, particularly academic research and our university fulfills these all demands. Higher education content comes to the student here rather than student's annoyance. My university makes individual modules available for students to choose from and combine across different providers. It is a position at the frontier of knowledge and performs a duty to push the boundaries of knowledge. It is a pursuit of knowledge for students.
